Professional Summary

- 3 years of expertise in Product Management, specializing in user experience, engagement and monetization
- Delivered measurable growth and revenue for multiple projects
- Exceptional communication, logical thinking, and system design skills

Employment History

Bilibili Inc. (Shanghai) Software Product Manager 2023.09-Now

Key Traits: Holistic vision, results-driven, detail-oriented

Project1: Layout Revamp of Live-streaming Room

1. [Challenge] Legacy layout lacked standardization, leading to poor UX and operational inefficiencies.
2. [[Project Approach] Layout definition, standardization and revamp, focusing on core features (goal 1: enhance user experience; goal 2: streamline resource allocation for business growth).
3. [Impact]
 - User Engagement: Restructured interaction zone and optimized chat UI, increasing chat volume by 2% and likes by 3%. Revenue: Improved gift bar stability/visibility, boosting average payment per user by 2.4% and total revenue.
 - Ad Performance: Decoupled guidance cards and added business modules, lifting game download card CTR by 1% point (pp).

Project2: Live Stream Interaction Optimization

1. [Project Approach] Focused on community-specific bullet chat features, optimized the end-to-end experience from sending to reading and interacting, thereby increasing bullet chat penetration and scale.
2. [Key Initiatives]
 - 2.1 Bullet Chat Scroll Rate Optimization
 - Problem-Solving: Addressed excessive scrolling speed causing poor user experience by analyzing discard rates and latency across speeds, finalizing an optimal scroll rate.
 - Impact: Increased bullet chat penetration by 0.43 pp and average messages per user by 33.05%.
 - Next Steps: Implement category-specific scrolling strategies.
 - 2.2 Bullet Chat Character Limit Expansion
 - Objective: Explored the role of in-depth comments in live streaming contexts.
 - Results: Boosted follower count by 0.26% and gift revenue by 3.13%.
 - Insight: Longer comments enhanced relationship depth and monetization but had minimal impact on interaction volume.

Project3: Rebranding of Creator Tool

1. [Challenge] High broadcast entry barrier, outdated/layout/design, and low tool adoption.
2. [Project Approach] Overhauled core features and UI/UX to simplify broadcasting.
3. [Impact]
 - Long-term broadcast conversion rate increased by 0.67pp.

- Optimized tool sorting/layout and real-time progress tracking raised interaction tool CTR by 3pp and campaign task CTR by 0.4pp.

Alibaba Group-Youku (Beijing)

Software Product Manager

2022.01-2023.09

Key Traits: Opportunity identification, innovation, resilience

Project: Lunar New Year Live Show

1. Metaverse-themed Gamification

[Innovation] Integrated AI/metaverse branding to enhance TV live streaming interactivity

[Impact] 38% YoY growth in average watch time via gamified scenarios

2. Customized DIY Virtual Gift

[Innovation] Brand new form of monetization in the live streaming room striking a new year vibe

[Impact] 60% YoY revenue increase

ByteDance (Beijing)

2021.07-2021.10

- Tool Efficiency:Upgraded backend demo clip tools, increasing weekly matches by 60%.
- Creator Education:Launched "Creator Academy" (20% penetration) , lifting 7-day retention by 4pp YoY.
- Growth System: Designed elite creator badges, boosting profile PV/UV by 35%.
- Data Infrastructure: Built full-funnel conversion tracking to identify bottlenecks.
